September 2025

To Whom It May Concern,

My name is Robert Seth Price, and I am an education consultant with extensive experience collaborating with schools and districts both across the United States and internationally. With decades of teaching experience at the pre-K, K, elementary and secondary school levels in California, Connecticut, and Indiana, I have also served as a national and international consultant in numerous regions. My expertise with pedagogy and critical thinking methods are an integral part of collaborations with pre-kindergarten, elementary and secondary, as well as the design and delivery of professional development training for teachers, administrators, instructional coaches, and support staff. In addition to my collaborations as a practitioner, I am passionate about content creation—both in-person and virtual—website development, and software solutions tailored to educational environments across various platforms.

The following highlights my wide repertoire of skills across education levels and stakeholders.

- High Operational Practices (i.e., situating learning the lives of students, amplifying student voice, belief in each student)
- Critical thinking methods and strategies that include collaborative communities, inquiry and dialogue, visual cognitive mapping to make thinking visible and for writing, and environment
- Whole staff professional development with hands-on practice and pedagogy across all grade levels and cross-walking all content areas that can immediately be integrated in classes
- Literacy including vocabulary, phonics, writing, reading, inquiry, comprehension, and dialogue
- Lesson process and design with the Pedagogical Flow Map
  (Priming > Processing > Demonstrating for Understanding)
- Supporting the Academic/Instructional Coach as the guide and implementor
- Supporting dialogue, lesson design, modeling (walking the talk), and implementation with Professional Learning Communities (PLCs)
- Facilitating peer to peer coaching whereby teachers coach teachers in PLCs and in classrooms

Software Applications and the Integration of Artificial Intelligence

In addition to my expertise as an educator and education consultant, I possess a robust skill set in software applications and the integration of artificial intelligence within educational environments. I am proficient in Microsoft Word, Excel, PowerPoint, Final Cut Pro, Adobe Premiere, Acrobat, InDesign, Illustrator, Photoshop, Google Workspace, Filmic Pro, Keynote, WordPress, HTML,

Ecamm Live, Whisper Transcription, ESRI GIS mapping, and the Zoom app for meetings, closed captioning, and transcription. Additionally, I possess advanced proficiency with Microsoft 365 Co-Pilot, a leading AI solution recognized for its security, ethical standards, and innovation.

Communication, Documentation and Public Relations

Communication, documentation, reflective models, and public relations is a core part of my work over the years. This has included through qualitative documentation telling the story, amplifying student voice with students as the storytellers from their frame of reference, and story creating to understand the evolving story. Essentially ongoing action research. My website, and websites I have created for education organizations share many examples of collaborations with early childhood pre-kindergarten, elementary and secondary.

Closing

My contact information, including my personal website, email address, CV, and LinkedIn profile, is provided below for your reference.

Sincerely,

Robert Seth Price, Education Consultant
